ROWORDER	VARIABLE_NAME	VARIABLE_LABEL	DERIVATION
001	DTYPE	Derivation Type	If there exists more than one record at a timepoint, create a new record at that timepoint holding the average result of all those records. On this newly created record, set dtype to "AVERAGE".
002	ANL01FL	Analysis Flag 01	Set to "Y" on the record which is closest to target day with in an analysis visit. If there exists multiple records which are closest, pick the latest record. And, if there exists more than one record with above condition, use the record with dtype= "AVERAGE".
