001	AVISIT	Analysis Value	SYSBP is collected every week from week 1 to week 5 and Weight is collected every 12 weeks from Week 12 to Week 148. For the subjects who do not have a result present in any scheduled analysis week, create a new record for the missed analysis week by using the postbaseline record which is closest to the missing analysis week.
002	DTYPE	Derivation Type	Set to 'LOCF' on the imputed record.
