ROWORDER	SUPP	VARIABLE_NAME	VARIABLE_LABEL	TYPE	GENERAL_COMMENT	FORM_EQ5D3L
001		STUDYID	Study Identifier	Char	Populate as 'MYCSG'	
002		DOMAIN	Domain Abbreviation	Char	Populate as 'QS'	
003		USUBJID	Unique Subject Identifier	Char	Concatenate the value of STUDYID variable to SUBJECT variable with a hyphen in between.	
004		QSSEQ	Sequence Number	Num	Sort the records by USUBJID, QSCAT, QSTESTCD, QSDTC and set to 1 on the first record for each subject, and increment by 1 for each subsequent record within the subject	
005		QSTESTCD	Question Short Name	Char		The responses to each question item is collected in a separate variable. We need to transform the data such that we create a row for each question Create a record with QSTESTCD=EQ5D0101 to store the result from EQ5D3L_1. Create a record with QSTESTCD=EQ5D0102 to store the result from EQ5D3L_2. Create a record with QSTESTCD=EQ5D0103 to store the result from

						Create a record with QSTESTCD=EQ5D0104 to store the result from EQ5D3L_4. Create a record with QSTESTCD=EQ5D0105 to store the result from EQ5D3L_5. Create a record with QSTESTCD=EQ5D0106 to store the result from EQ5D3L_6.
006		QSTEST	Question Name	Char		Populate as 'EQ5D01-Mobility' when QSTESTCD=EQ5D0101. Populate as 'EQ5D01-Self-Care' when QSTESTCD=EQ5D0102. Populate as 'EQ5D01-Usual Activities' when QSTESTCD=EQ5D0103. Populate as 'EQ5D01-Pain/Discomfort' when QSTESTCD=EQ5D0104. Populate as 'EQ5D01-Anxiety/Depression' when QSTESTCD=EQ5D0105. Populate as 'EQ5D01-EQ VAS Score' when QSTESTCD=EQ5D0106.
007		QSCAT	Category of Question	Char		Populate as "EQ-5D-3L".
008		QSORRES	Finding in Original	Char		Populate using
© 2014–2026 Copyright: www.mycsg.in						
						Creating row for QSTESTCD=EQ5D0101. Populate using EQ5D3L_2 when creating row for QSTESTCD=EQ5D0102. Populate using EQ5D3L_3 when creating row for QSTESTCD=EQ5D0103. Populate using EQ5D3L_4 when creating row for QSTESTCD=EQ5D0104. Populate using EQ5D3L_5 when creating row for QSTESTCD=EQ5D0105. Populate using EQ5D3L_6 when creating row for QSTESTCD=EQ5D0106. . Note for questions 1 to 5, use only the second component from the result variables when hyphen is the delimiter.
009		QSORRESU	Original Units	Char		Set to null
010		QSSTRESC	Character Result/Finding in Std Format	Char		Populate using EQ5D3L_1 when creating row for QSTESTCD=EQ5D0101. Populate using EQ5D3L_2 when creating row for

						Populate using EQ5D3L_3 when

						creating row for QSTESTCD=EQ5D0103. Populate using EQ5D3L_4 when creating row for QSTESTCD=EQ5D0104. Populate using EQ5D3L_5 when creating row for QSTESTCD=EQ5D0105. Populate using EQ5D3L_6 when creating row for QSTESTCD=EQ5D0106. . Note for questions 1 to 5, use only the first component from the result variables when hyphen is the delimiter.
011		QSSTRESN	Numeric Finding in Standard Units	Num	Populate using QS.QSSTRESC.	
012		QSSTRESU	Standard Units	Char		Set to null
013		QSLOBXFL	Last Observation Before Exposure Flag	Char	Populate as "Y" on the latest record with non-missing result on or prior to DM.RFXSTDTC for each subject and test.	
014		QSEVAL	Evaluator	Char		Populate as "STUDY SUBJECT"
015		VISITNUM	Visit Number	Num		Populate with the value from FOLDERSEQ
016		VISIT	Visit Name	Char		Populate with the value from FOLDERNAME
017		QSDTC	Date/Time of Finding	Char		Populate using QSDAT_RAW after converting to ISO8601 format.
018		QSDY	Study Day of Finding	Num	Populate using QS.QSDTC and DM.RFSTDTC. If QSDTC is on or after RFSTDTC then populate with the resulting value of QSDTC-RFSTDTC+1. Else if QSDTC is before RFSTDTC then populate with the resulting value of QSDTC-RFSTDTC.	
019		QSEVINTX	Evaluation Interval Text	Char		Populate as "TODAY"
