ROWORDER 	VARIABLE_NAME 	VARIABLE_LABEL 	DERIVATION 
001	General		For analysis purposes, we often have to determine if at least one dose of a non-study medication is taken within the duration of study treatment. In this example, in cases of partial dates for start date - the medication is assumed to have been started as early as possible within the partial component. in cases of partial dates for end date - the medication is assumed to have been ended as late as possible within the partial component.
